

# AIC Imaging Working Group (IWG)

## IWG Meeting Agenda

Friday, April 9, 2021, 11:00am-12:00pm ET

1. **Welcome Remarks, 5 min**
2. **Breakout Room Introductions, 5 min** – We will start with small breakout groups with the aim of creating and building the imaging community. Use this opportunity to greet some new people or say hello to a familiar face. Consider sharing the following about yourselves:
  - Name, title/field, location, institution
  - What is the most interesting thing you have recently photographed (personal or professional)?

3. **Presentation by Dr. Joanne Dyer, 25 min** — This presentation will focus on the “Multispectral Imaging in Reflectance and Photo-induced Luminescence modes: A User Manual” created as part of the EU-funded ‘Cultural Heritage Advanced Research Infrastructures: Synergy for a Multidisciplinary Approach to conservation and research’ (CHARISMA) project.

Joanne Dyer is a Scientist in the Department of Scientific Research at the British Museum and specializes in the study of color, colorants, and their sources. Trained as photochemist and vibrational spectroscopist, her research interests lie in the interaction between light and the materials encountered on ancient polychrome surfaces and archaeological/historical textiles. Her research uses a variety of analytical techniques and adapts and develops new imaging methods for the study of colored surfaces, enabling them to be read and understood in new ways.

4. **Q&A, 10 min** — The presentation will be followed with time for questions and answers. Participants can “raise a hand” to ask questions of the presenter using their video and audio or questions can be posted in the chat box.
5. **Topic Group Updates, 10 min** — Brief updates from each of the topic groups will be shared summarizing the different groups’ progress, next steps, etc.
6. **Closing, 5 min** — At the very end of the meeting, there will be time for final questions, announcements and closing remarks.
